

The Winner

HENRY RUSTE
Social Credit

Successful candidate in Wainwright Provincial Constituency in the election June 29.

Echo-Rodino News

The monthly meeting of the Rodino W.A. was held at the home of Mrs. R. Astley. All members present except two.

Baby Alexander Johnston is a patient with the Viking hospital.

Mr. and Mrs. A. Crouse are visiting with the Milton Crouse family at Lacome.

The Rodino ball team were guests at Batts on Sunday. The results of the games were: Batts 17—Rodino 11; Willowview ladies 22—Rodino ladies 2.

A nice congregation assembled for service at Rodino June 26.

Mr. and Mrs. F. Nash, Shirley and Valerie motored to Wainwright Sunday evening. Shirley will be employed at the hospital for the summer.

MD Council Have Busy Session

The Council of the MD of Wainwright No. 61 met in the Council Room of the MD on Thursday the 9th day of June A.D. 1955.

Councillors Dallyn, Castle, Garrich, Patterson, Plaxton, Nilson and Archibald present.

This is the official record of the proceedings.

Plaxton—That the Minutes of May 12, 1955 be approved as written.

Finance—That the accounts as recommended by the Finance Committee and subsequent accounts received be passed for payment.

Secretary advised that the 1955 Municipal Revenue Grant of \$70,174.02 had been received and that the resolution No. 233 of the 12th May authorizing the borrowing of \$20,000.00 was not necessary.

Archibald—that the Statement of Receipts and Disbursements for the month ending May 31, 1955 be accepted and incorporated in the Minutes C.d.

Administration and Taxation

Bylaw 489 of the MD of Wainwright No. 61 for the purpose of engaging an Assessor for the reassessment of the MD of Wainwright No. 61 presented, passed first, second and third reading C.d.

Patterson—that the report of the Reeve and Secretary re to division of Assets and Liabilities MD of Flagstaff and MD of Minburn be accepted and the Committee report again at July meeting of Council C.d.

As per advertisement in the March 31 edition of the Alberta Gazette page 709, the following parcels of land not redeemed were offered for sale by Public Auction.

NE 15-48-9-4. Upset price \$3000.00.

Wainwright Central Park 1155 AE—Lots 7, 8, 9, 10 Block 10; Lots 16, 17, 18, 19, 20, 21 Block 27; Lot 15 Block 28; Lot 23-24 Block 28.

Hamlet of Ribstone 1760 BK—(Continued on centre page)

Glen-Coa Gleanings

The Rev. and Mrs. H. C. Satre, Miss Curds, and baby Randi of Vancouver spent this past week with their parents, Mr. and Mrs. L. Satre.

Sympathy is extended to Mrs. J. Larson in the recent passing of a niece, Mrs. Alfred Peterson of Edberg. Mr. and Mrs. P. Spring attended Mrs. Peterson's funeral on June 22.

Mr. and Mrs. Drevlow of Oregon renewed acquaintances in our district last week when they visited at Satre and Springs and other friends in Irma. Mr. Drevlow used to farm in this community many years ago.

Mr. and Mrs. M. Reitan had relatives visit them recently, Mr. and Mrs. Larson and Mrs. Grindstaff of South Dakota.

Sharon Ladies Aid will meet at Mrs. Joe Gulbraaten's home on Thursday, July 7.

Sharon Luther League is sponsoring a Family Night next Sunday evening, July 3 at 8 p.m. Pastor, Satre of Vancouver has consented to speak that evening. The Leagues also plan to show two short Bible Camp films, and two W.M.F. films. One of these is on Japan, the other is entitled "One Thing Needful." It is hoped that every Luther League as well as every W.M.F. member will be present. Everybody is welcome.

Kinsella News

Mr. and Mrs. G. Paterson and Marilyn are on an extended motor trip to the west coast and various parts of the U.S.A.

Mr. and Mrs. Lowell Pedersen of Bonnyville visited at the home of Mr. Pedersen's parents, Mr. and Mrs. Leif Pedersen last week.

Mr. and Mrs. W. D. Johnston Sr. and Bay spent the weekend fishing at Muriel Lake.

Quite a number of Kinsella people attended the Wainwright stampede on Friday and Saturday, June 24 and 25.

Mr. and Mrs. M. Bilo and Sandra spent the week-end in Edmonton.

The Golden Jubilee Caravan visited Kinsella last Monday and a large number of people enjoyed the picture show at night.

The curling committee is planning another dance on Friday, July 15. Please keep this date in mind.

Kinsella won first prize money at the softball game on Sunday at the picnic on the Rozmashel farm north of Viking.

Mr. Laurence Marchuk and Miss Ethel Theroux were weekend visitors at Clarence Horning's home.

On the occasion of their first wedding anniversary, Mr. and Mrs. J. P. Zelinski entertained thirty relatives and friends at a well prepared smalow roast on Sunday evening.

After the regular church service on Sunday, the 26th, the congregation of the Kinsella United Church honored the Rev. and Mrs. N. Knight at a farewell social hour. Mr. E. Simmonds, chairman of the church board in his opening remarks expressed regret at their leaving and wished them success and happiness in their new home. An instrumental and vocal programme under the direction of the recent communicant's class was very much enjoyed.

Malcolm McKie acted as chairman. Laura Hodgingon behalf of the communicant's class, presented Mrs. Knight with a bouquet of roses and carnations.

Bill Armitage then presented the guests of honor with a purse from the congregation. Mrs. C. Lancaster on behalf of the Kinsella W.A. made a presentation to Mrs. Knight of a wooden hostess tray.

Mr. and Mrs. Knight expressed their thanks for the gifts they had received and also for the friendship they had enjoyed during their pastorate in Kinsella. At the close of the social hour, dinner was served.

If you have anything to sell or trade, try a Times Want Ad. It will bring results.

WITH THE District Agriculturist

By J. S. Duncan

High Quality Hay

There are two things which reduce the quality of hay more than anything else. The first is bad weather, and there isn't much we can do about it. The second is letting the hay get too mature before cutting it and this we have pretty good control of. For best quality hay the best time to cut the most common legumes and grasses is listed below.

Alfalfa—10 percent bloom. Sweet Clover—Bud Stage. Alfalfa and Alsike Clover—full bloom.

Brome Grass—before fully headed. Crested Wheat—early heading. Timothy—Blossom stage. Reed Canary Grass—before heading.

For a mixture of legumes and grasses, cut when the predominant legumes are at the right stage.

Crops for Fall Pasture

Cover crops can often be money makers when used to combine soil protection with fall pasture for livestock. Experiments have indicated that planting Oats or a mixture of Oats and Fall Rye during the latter half of July at a rate of one to 1½ bushels per acre will usually give a crop which is ready to pasture about the first week of September. This is used by some stockmen as pasture for the stock they intend to fatten during the winter. If not pastured too heavily, there is also good protection for the soil during the winter and spring.

Illustration Station Field Days

I have been surprised to discover many stations in our district do not know that there are two Illustration Stations in this area. One is the E. Pitman farm at Chauvin and the other is the E. Masson farm at Metiskow. These farms are sub-stations for the Lacombe Experimental Farm and each year there is a field day held at each of these farms. At these field days, the results of experiments discussed as well as other topics of interest. These farms are places where farmers can see all the new kinds of crops and different fertilizers and crop rotations being tested.

The field days this year are:

Chauvin, July 7, Metiskow, July 8. Why don't you drop in at one or the other and see what is new.

EASTERLY ECHOES

On Monday last, Mrs. Jean Sare commenced duties in the Wainwright post office.

The July meeting of the Easterly W.L. will be held at the Dooson home on Thursday, July 7. This is usually a big day for the children of the members.

Friends are also welcome too. Mrs. J. Jackson will be present to give a report of the Edmonton Conference of W.L.'s. The hostesses for the day will be Mrs. Dennis, Mrs. Gardner, and Mrs. Dooson, roll call, what you would like to do for a holiday. Draw by Mrs. Morse.

Julius Stougaard and his sister Mrs. Campbell, drove to Hanna to visit for a few days with their sister Mrs. Hamilton.

Mrs. Jim Tindall and children have been visiting at the home of Mr. and Mrs. E. Fenton.

Mrs. Lofendote and children from Winnipeg are visiting with the Stuart Fenton family. On Tuesday Mrs. Fenton took her visitors to the tour of Hereford Breeders Association. This included a very interesting field day on the farm of Jack Cross where special awards were handed out for junior and senior judging competitions and informative talks were heard. Don Clayton was also present.

Evening Group of the W.A. will hold a Salmon House Cooking at the Irma Co-op on the afternoon and evening of Saturday, July 2, beginning at 3 p.m.

Southern Sayings

Miss Nellie Cairns is spending the summer holidays working in Wainwright hospital.

Next meeting of the Strawberry Plains W.L. will be "Grandmother's Day" and it will be on July 21. It will be a "pot luck" lunch. Roll Call—bring a grandmother or a friend. Raffle—Mrs. Funk. Programs—Mrs. Hill, Mrs. Bacon, Mrs. E. Jackson, Mrs. Cresay, Mrs. H. Long and Mrs. Cairns.

Visitors at the home of Eddie and Lorna Jackson on Sunday last to celebrate Norven's birthday were Mr. Jack Peterson and his daughter Elaine of Edmonton, Mr. and Mrs. Lorne McLeod and family, Miss Vivian Archibald of Wainwright, Mr. and Mrs. A. C. Archibald and family, Grandma Peterson, Mr. and Mrs. Harry Swanson, George Foreman and Mr. and Mrs. J. Jackson and Arthur.

Alfalfa—10 percent bloom. Sweet Clover—Bud Stage. Alfalfa and Alsike Clover—full bloom.

Brome Grass—before fully headed.

Crested Wheat—early heading. Timothy—Blossom stage. Reed Canary Grass—before heading.

For a mixture of legumes and grasses, cut when the predominant legumes are at the right stage.

Crops for Fall Pasture

Cover crops can often be money makers when used to combine soil protection with fall pasture for livestock. Experiments have indicated that planting Oats or a mixture of Oats and Fall Rye during the latter half of July at a rate of one to 1½ bushels per acre will usually give a crop which is ready to pasture about the first week of September. This is used by some stockmen as pasture for the stock they intend to fatten during the winter. If not pastured too heavily, there is also good protection for the soil during the winter and spring.

Mr. and Mrs. W. D. Johnston will be present as well as other members.

Lee Whidden has spent the past week at the home of his grandparents, Mr. and Mrs. H. Whidden.

Eddy Orachesci of the RAF and stationed now at Moose Jaw, was home over last weekend.

George Miller sustained a cracked knee when he fell while playing. This necessitated a stay in hospital and rest at home for a few days.

Jeanette Meakins is a patient in the Viking hospital.

Mr. and Mrs. Harold McDougald accompanied by Mr. and Mrs. John Kennedy, visited around the district last Thursday. They were former residents here years ago and found many changes.

Mr. and Mrs. Ted Skorjanyuk journeyed to Camrose last Saturday to bring Norine home for the holidays.

Mr. E. McGuire returned on Saturday after a very enjoyable trip to Nova Scotia. He reported considerable rain in the East. Wish he could have brought some back with him.

Officers elected for the coming year are:

Hon. President—Mrs. H. Borrell, Tofield.

President—Mrs. T. N. Withnell, Edgerston.

Vice-President—Mrs. H. Child, Viking.

Secretary-Treasurer—Mrs. A. J. Patterson, Heath.

There will be a 4H Grain Club meeting at 8 p.m., Monday, July 4. It is important that all members be present as plans for the forthcoming tour to Edmonton will be discussed. The meeting will take place either in the school lunch room or the Wheat Pool elevator office.

The next meeting of the Irma W.L. will be held in the lunch room of the school on Thursday, July 7 at 3 p.m. Hostesses, Mrs. Glasgow, Mrs. Milne, Mrs. R. O. Larson, Mrs. Drevlow. Program by program committee. Roll Call—Bring a Grandmother.

The Alliance Tabernacle Sunday School picnic will be held on July 7 at Hardisty Lake. Those in need of transportation please be at the Tabernacle not later than 10:30 a.m.

Evening Group of the W.A. will hold a Salmon House Cooking at the Irma Co-op on the afternoon and evening of Saturday, July 2, beginning at 3 p.m.

W.A. Conference At Tofield

After light refreshments were served to the visiting ladies, who will be in Tofield on Tuesday, May 31, to attend the 15th Annual Wainwright Deansery W.A. Conference.

Corporate Holy Communion service was celebrated at Holy Trinity Church at 11:30 a.m. with Rev. Cole of Tofield officiating, assisted by Rev. J. Moorhouse, of Wainwright.

Immediately following a delicious luncheon, which was served in the curling rink at noon, the regular business meeting was opened in the Sunday School room at Holy Trinity Church by singing a hymn and repeating the member's W.A. Prayer.

The address of welcome given by Tofield W.A. was replied to by Edgerston W.A. Roll Call showed all but one branch represented.

The President, Mrs. Withnell, delivered her address, the topic being our theme for the meeting, "Thou art Peter, and upon this rock will I build my church."

Reports from all W.A. branches in the Deansery were read, which proved that the past year's work had been successful for all.

Money voted out from the Conference this year was to the Anglican Sunday School of the Air and the "Gray Window."

The Diocesan Officers present from Edmonton brought their messages. Those present were Mrs. Hammert, Mrs. Davis, Mrs. Fairbrother, Mrs. J. A. L. Smith and Miss Jean Whittingback.

Miss Whittingback gave a very interesting talk on the Anglican Women's Training College in Toronto, accompanied by showing of colored slides of college life there.

Mrs. Tackaberry, past C.W.A. President, and now Dominion Prayer Partner-Secretary, spoke on the work of this department, bringing new light on this particular branch of our work.

Rev. Cole thanked all branches for their hearty response to his special request last year for help to further our work at the Frog Lake Mission.

Several questions from the Question Box were read and answered satisfactorily.

A wonderful collection of hand knit ankle socks and mitts was turned in again this year from all W.A. branches to be sent to the girls at the Wabasca Mission School. After votes of thanks were given, Rev. Cole closed with prayer. It was then moved we adjourn, to meet again next year on Tuesday, May 29 at Irma.

After adjournment, the ladies attended Evensong in Holy Trinity Church. This was followed by enjoying refreshments, served by the Tofield branches before we left for home after spending a very worthwhile day of Christian fellowship with other W.A. members.

Officers elected for the coming year are:

Hon. President—Mrs. H. Borrell, Tofield.

President—Mrs. T. N. Withnell, Edgerston.

Vice-President—Mrs. H. Child, Viking.

Secretary-Treasurer—Mrs. A. J. Patterson, Heath.

CHURCH SERVICES

SHARON LUTHERAN

Sunday, July 3

Sunday School and Bible Class 11 a.m.

Luther League Family Night 8 p.m.

Guest speaker Rev. H. C. Satre L. Knudson, Pastor

Call—Bring a Grandmother.

The Alliance Tabernacle Sunday School picnic will be held on July 7 at Hardisty Lake.

Those in need of transportation please be at the Tabernacle not later than 10:30 a.m.

Australia, with about half the population of Canada, has since the Second World War, accepted just about the same number of immigrants.

Northern Nuggets

Buffalo Coulee W.L. met on June 23 at the home of Mrs. A. C. Archibald. Thirteen members and two visitors answered the roll call with Where I'd Like to Spend a Holiday. Highlight of the meeting was Mrs. Edgar Jones' report of the Bi-annual Convention which she attended as delegate. A donation was made to the Irma Grain Club as June's objective. It is hoped to have Miss Kirk speak on Fabrics sometime during the summer. Next meeting—Mrs. Claude Ramsay, July 21. Roll Call—

A Surprise. Mrs. W. E. Ramsay won the contest given by Mrs. Lukens.

Misses Jean and Joan Fleming plan to leave this week to pick berries in B.C.

Mr. and Mrs. Vic Johnson and boys are holidaying at the E. C. Prior home at present.

Mr. Ronald Clark of Calgary spent the week-end at the home of Mr. and Mrs. C. L. Currie, his wife and daughters returning home with him on Sunday.

We understand that Mrs. J. Tully has had the company of her mother from the city recently.

Mrs. Stanley Jones and Rowland left Monday on a holiday to visit relatives at Saskatoon and Swift Current, Sask.

Mrs. Chester Brown and Carol left last week on a short holiday trip to the coast.

Mr. and Mrs. Gordon Ramsay have had the company of Mrs. Ramsay's aunt and uncle from California and her mother, Mrs. Nash, recently.

School officially closed June 30 with a Jubilee programme, picnic and dance at Albert. Best of luck to Misses Carol Lambert and Letitia Greer and Hugh Fleming who have been writing Grade IX departmental exams, and happy holidays to teachers

Novel scrapbook at Museum on N.W.T. exhibition of 1895

REGINA.—A novel newspaper scrapbook on the North West Territories exhibition held in Regina in 1895 will soon be among the displays to be seen in the Provincial Museum of Natural History. Dr. Lewis Thomas, provincial Archivist, who received the scrapbook from the estate of the late Brigadier General F. W. E. Burnham, formerly of Arrow Lakes, B.C., has died.

The collection, which Dr. Thomas says has not been duplicated since, except for the World Grain Show, was under the management of Lieutenant Governor of the North West Territories, C. H. Mackintosh. The scrapbook was prepared in the governor's office by his secretary.

Caledonian sports

The scrapbook contains newspaper clippings, advertising posters, an official souvenir program, and copies of programs for such events as exhibits, bicycle and horse races, skating, croquet, polo tournaments, lacrosse, bull train and dog driving, trapshooting, bronco breaking, football, and many other competitions.

The newspaper clippings were given to the scrapbook throughout Alberta, Assiniboin, and Saskatchewan, as well as from many American farm journals. The scrapbook also contains a plan of the exhibition grounds and illustrations of the buildings. There was one two-story cabin, two two-handstans, a 1,200-seat grandstand, a platform, "the fastest half-mile track in Canada," three water wells and two

ITCH STOPPED IN A JIFFY
Very first use of soothing, cooling liquid D.D. Prescription positively relieves redness, irritation, insect bites, scorpion sting, chafing—other itch troubles. Great relief from mosquito bites, sunburn, etc. Safe, non-toxic. No stinging or money back. Don't suffer. Ask your druggist for D.D. PRESCRIPTION.

This cart beats a wheelbarrow when doing the chores around the homestead. For example, it may be hauled up to rest the front on the grass so great clods can be raked into it. The deep hopper holds a lot of litter meaning fewer trips to the compost heap. Having two wheels on a base makes it easier to handle than a barrow. Eight-inch disk wheels would be better than the wooden ones shown in the sketch. If the garden is cleaned up for the winter just remove the wing nuts and hang the cart in an out-of-the-way place. The pattern is 35c if it will be included in the Gardeners' Helpers Packet for five standard size patterns for \$1.50 postpaid.

Whether one is planning a new house or doing over the old, an interesting feature if the style is well chosen. They may be used for decoration only or may be hinged to open and close easily. The twelve designs differ both in decorative cut-outs and construction. From this wide assortment of styles something appropriate can be found for the home town, country or at the shore. Actual-size cutting guides are given for both general and overlay designs. With your order for the shutter pattern at 35c also include \$1.50 for the Homestead Improvement packet of five patterns for valuable outdoor improvements.

Address order to:

Vancouver, B.C.

The Canada-Alaska boundary stretches for 1,539 miles. 3147

windmill pumps among other things. The present Regina exhibition property dates from this period.

The newspapers of the time carried divergent views on the ambitious exhibition. Articles in the scrapbook range from the complimentary to the strongly critical. Calgary papers charged officials with "bootlegging" and waste.

Governor General Lord Abercrombie was present to open the exhibition on June 29, 1895. An estimated \$10,000 in prizes was given out and gold and silver medals and diplomas for exhibits of cereals, farm products, horses and cattle, etc.

The scrapbook indicates that the basic idea behind the Territorial Exhibition was to publicize the produce of the North-West and to encourage by competition the raising of better types of animals and grains. Over 900 head of stock were on exhibit.

Auto liability limits boosted in Manitoba

Announcement of a boost in policy limits on automobile insurance, with no extra cost to the buyer, has been warmly received by the Manitoba government, according to Hon. Chas. L. Shuttleworth, minister of Public Utilities. Under new regulations announced recently by Standard Insurance Company, Manitoba Public liability limits are to be increased from \$5,000 to \$10,000 for one person killed or injured. Similarly, liability limits for two or more persons killed or injured will jump from \$10,000 to \$20,000. The change will go into effect July 1.

"The increase fits in with legislation passed during the last session of the Manitoba government," said Mr. Shuttleworth. "Under an amendment to the Insurance Act, double liability limits became law as of July 1, 1956. With insurance companies making the new limits available a year ahead of time, however, car owners will not be forced to change their policies mid-term."

Mr. Shuttleworth said further that it is a source of satisfaction to the government that limits are being doubled at no extra cost to the car owner.

To keep rates down in price, the minister commented, is in large part due to Manitoba's highway safety program, which has been instrumental in reducing accidents on provincial roads. He added that Manitoba leads the other Canadian provinces in increasing auto liability limits.

Stains often make floors look worn

Persistent stains often make even the shiniest floor look worn and marred. Quick action following an "accident" might save the day.

Eileen M. Crowther, Home Designing Specialist with the Alberta Department of Agriculture, has the following suggestions to make regarding removing stains on wood floors:

To remove grease stains or spots from wood floors, add one table spoon of ammonia to two quarts of hot soapy water.

Remove iodine stains with wood alcohol or with a weak solution of household ammonia.

Mercurochrome stains may be removed with a weak vinegar solution.

Paint stains may be removed with turpentine, any regular cleaning fluid or one of the preparations made for the purpose.

Mark on linoleum mats from time to time with a pencil and they may be removed by wiping with a cloth moistened with any kerosene or good cleaning fluid.

A trick to remember when grease is spilt is to rub a piece of ice over the stain. This will harden the grease and prevent it soaking through.

Broken glass

Broken glass or china, tossed away carelessly, may cause dangerous wounds to those who inadvertently handle it. Such pieces should never be tossed into a trash can or garbage pail without being put into a container wrapped and tied and then labelled as "Broken glass"; otherwise, workers handling such waste may be soaking through.

A fathometer is used by ships to measure the depth of water.

Experimental farms appointments

C. H. Goulden, left, has been appointed Director, Experimental Farm Service, Canada department of Agriculture, following the retirement of Dr. E. S. Hopkins. Dr. J. C. W. Wood, centre, formerly Chief of the Chemistry Division, has been appointed Associate Director. Dr. D. G. Hamilton, right,

Banks constructed to thwart crime

That new bank on the corner, sparkling with glass and stainless steel, is no pushover, says Vincent Egan in *The Financial Post*.

With its glass doors and door-to-ceiling windows on the outside, its open counters and absence of partitions inside, it undoubtedly helps to beautify the community. But don't be deceived by its air of openness. Chances are it's much more bandit-proof than the old fortress-like branch down the street.

It's true that the old banks looked more secure with their heavy bars, ornate grill-work and massive stonework. But for the burglar and the hold-up man, they provided near-perfect opportunities to work unnoticed. For bank staffs, they encouraged a Maginot Line mentality.

The modernistic bank is no sitting duck. Besides having the latest in built-in safety devices, its general architecture is designed partly to make the criminals' job as tough as possible.

Canadians are still the world's greatest telephone conversationalists. During 1953—latest figures available—Canadians averaged 411 conversations each.

Sew it in a day!

4553

12-20-30-42

by Anne Adams

Look at the diagram and begin to sew with this honey of a dress in a day! FEW pattern parts, minimum details—a world of style! Curvy neckline, fitted bodice and flared skirt—are so simple to make. Colors—wool, cool nylon print, linen, cotton.

Pattern 4553: Misses' Sizes 12, 14, 16, 18, 20; \$3.22, \$3.46, \$3.58, \$4.00, \$4.25, \$4.50.

This pattern, easy to use, simple to sew, is tested for fit. Has complete illustrated instructions.

Send thirty-five cents (\$3.65) in coin (stamps cannot be accepted) for pattern. Write for size, name, address and style number and send orders to:

Department P.P.L.,
Anne Adams Pattern Dept.,
60 Front Street W., Toronto

"Not much. I'm no hand at gos-

sip."

"Married?"

"Yeah."

"How long?"

"A year or two years."

"Tough having to work nights."

Harry Benton was a new man. When his partner was taken sick, he had to pitch in.

Car Thirteen eased onto Fifth Street, and the clock showed to ten. The bus was waiting outside, and the trolley tracks didn't show any longer.

The radio crackled and I saw Harry stiffen.

"Car Thirteen. Calling Car Thirteen. Calling sixty-seven. Code six seven. That's all."

That woke me up plenty.

Harry turned carefully and stepped on the gas. The wheels spun as I was getting mad.

"A hospital call, with ten minutes to go. All I can do is call cars. Code twenty-nine. Code two three. All cars...."

We crawled a little as he touched the brakes. I was too sore to speak.

"Well . . . ?" he asked tentatively.

"That's inner blockade—that's dynamite," I said. "What would you do if you were sergeant?"

Reluctantly he started the turn. "Head for West Waterway—that's our station. But they could force us to cancel."

Then the radio came in with details: "Stick-up at Maynard's Get-away car is sedan. Car Thirteen cancel six seven...."

"There it is!" I swore. "There is no justice. It's not as though they ever show up—just 'keep you waiting all night.'"

"Yeah!"

Harry looked grim as he pushed the wailing car into the whitening night. It didn't take two minutes to reach the bridge. He came to a stop in the middle of the winding, switchback roof spot, unloosened his holster.

I reached for the riot gun, opened the door.

"Never do show up. Just keep you waiting all night," I said.

Two headlights shone from the city side, grew bright and wider apart. They were belting right along.

Harry twisted the spot as I circled. His light caught the other driver. He cracked his wheels, going sideways.

I heard Harry yell, "Get clear sergeant!"

"I'll meet you halfway," conceded Mrs. Smalley. "I'll admit I'm right if you'll admit you're right."

A burly farmer with a healthy appetite took his seat in the dining room of the hotel and ordered beef.

Presently the waiter came along with a plate on which was a small portion of meat.

The farmer had a look at it and said, "Yes, that's the kind. Bring me some!"

"I'll meet you halfway," conceded Mrs. Smalley. "I'll admit I'm right if you'll admit you're right."

An actress at a party, seeing an authoress who she disliked, went over to congratulate her on her writing. "I have really enjoyed it, my dear," she said. "Who wrote it for you?" "Darling," replied the authoress. "I glad you liked it. Who read it to you?"

"I'll meet you halfway," conceded Mrs. Smalley. "I'll admit I'm right if you'll admit you're right."

"Keep this up, and we'll finish the job," I said.

"Yeah? Better limer your gun and start on their tires."

Little slab of red flame came from the car ahead. Our windshield cobwebbed as the slugs hit.

I reached open the gun port to work, and I wasn't aiming in rubber.

The driver gave a little jerk and the sedan started to weave. The man on the right leaned over to manhandle the wheel. They hit the curb, slid on one side, then the other, until it went. It took us another hundred yards to get ourselves under control.

Back at the wreck you could hear the wail of other sirens like a pack of hungry wolves. I ran up to the ambulance and dead-wagon had come and gone that the lieutenant gave us the good word.

"Back to the station and make your report. Then you can check out."

I stamped the snow from my boots. "About time. But I'm glad we were there. They sure came hellion across that bridge."

Harry wheeled us right smart to town. But he missed the turn off to the station. The Canadian Capital. Their sales to the United States are the chief reason for the high level of the Canadian dollar in Canada-U.S. exchange.

"Back to the station and make your report. Then you can check out."

WHEAT HEADING OUT

Bill Mattinson, who farms about five miles south of town, reported that he had wheat headed out on June 25. The wheat is of Thatcher variety and was sown soon after the last snow fall on breaking. Looks like Mr. Mattinson is not going to have to worry about frost if some good rain showers come along soon—and no hail.

HOME FROM TRIP TO CALIFORNIA

Mr. and Mrs. M. Gullion have returned from a two weeks holiday motor trip to California. Mr. Gullion brought to this office a cone from a sugar pine grown at Chester, Cal., and is on display in the News Office. The trees grow as high as 150 feet and the cones are about as large as a rugby football.

viewed Cresthill Grazing Association and Robert Clifford in which they had agreed with each other that the Grazing Association would fence from the NW 36-42-3 East of the Ribstone Road and take care of any bulls and baird cattle within the Association Area, and that Mr. Clifford to take care of his cattle in the same way be accepted.

Garricoh—that the report of the Committee re to Pounds damage claim Robert Clifford and Cresthill Grazing Association be accepted. That the damage claim of Mr. Clifford paid under protest by the Grazing Association amounting to \$6.00 be disallowed this amount to be returned to the Association and that the \$2.00 deposit of each party be retained by the MD to help defray the cost of Committee investigating the claim. Cd.

Public Works

Dallyn—that the party placing a Texas Gate 19-45-9-4 be advised that this structure is not the required width and that same be widened without delay and that the responsibility of this gate still rests with the maker of same. Cd.

Castle—that the Department of Highways be requested to consider an extra Grant to care for a school bus route from the SE of the SE 15-42-3 south 2 miles east 3 miles, grading and gravel, at a total cost of \$5000. Cd.

Plaxton—that approval be given for the purchase of a Hydraulik Steering Booster for the 12 A Motor Grader. Cd.

Plaxton—that the MD of Provost be approached for a Grant towards the graveling of the road along south side of SE 14-41-4 to take care of the travel from Provost to Dilberry Lake. Cd.

Patterson—that the report of Clr. Dallyn re to a Texas Gate 26-43-1-4 be accepted and this matter fabled. Cd.

Garricoh—that the application of W. Jerran to lease the road allowance between NW 33-43-6 and SW 4-4-4-6-4 be disallowed. Cd.

Castle—that Clr. Dallyn be a Committee re to the Leasing of road allowance along the east part of the NE 20-41-2-4 and report at July meeting. Cd.

Garricoh—that the construction rate of the Adams 660 be \$7.00 per hour. Cd.

Castle—that the report of Clr. Archibald re to the stock scales site at Jarrow be accepted and that this Lease be discontinued. Cd.

Archibald—that application be made to have District Highway 41-5-90 extended to the North Boundary of this MD. Cd.

Dallyn—that this Council approve of the application for a portion of the Special Contingencies Vote 2106 1-D. Cd.

Correspondence to and from the Department of Highways as to bridge repairs in the SE 17-47-4 read and noted. Cd.

Dallyn—that the circular letter from the Alberta Government Telephones re to removal of Telephone lines an account of widening of roadways as read be filed for reference. Cd.

Correspondence to and from the Dept. of Highways re to graveling of approach roads to Highway No. 14 read and noted. Cd.

Dallyn—that the paychecks be passed and paid when signed by the Councillor concerned. Garricoh—adjourn.

**T.B. CLINIC
REGISTRATION**

The Alberta Tuberculosis Association have asked the Irma W.I. to sponsor a Christmas Seal Mobile Chest X-Ray Clinic. The unit will be in Irma sometime near the middle of July.

A large amount of preparation work is required to make these clinics the success they deserve to be. These clinics are only held where and when conditions warrant. So it is to the personal advantage of everyone of us to do all we can to get full coverage by this clinic when it is here.

The committee chairmen are listed below:

Advance Registration — Mrs. R. C. McFarland.

Clinic Appointments — Mrs. M. Fahrner.

Publicity — Mrs. Hubman.

Volunteer Help — Mrs. E. W. Prosser.

General Chairman — Mr. A. C. Milne.

The area to be served by the clinic at Irma takes in all the people from Fabian on the East to 1 mile East of Kinsella, and from Buffalo Coules to 10 miles South of Irma.

The personal canvass for Registration is being held in each district by an organization or individual in each part of the district as follows:

Irma Women's Institute.
Buffalo Coules W.I.
Strawberry Plains W.I.
Sharon Church Ladies Aid.

Mrs. Gerald Scott; Mrs. Comedy; Mrs. Geo. Bridgeman; Kindella W.I.; Ross - Alma-Mater F.U.A.; Roseberry F.U.A.

All these organizations and individuals should be given all the help possible by the people in their communities.

Do not feel that you are too old, or too young, or have any other reason not to attend the clinic. Be sure and have a registration card filled in. If you were out, or away when a canvasser called, you can get a card

**News Roundup
From Edmonton**

By Ken Mason

EDMONTON — It's doubtful if any sport can match the thrill of tying into a lunker rainbow trout — the feel of the lightning strike straining light tackle, and the excitement as the monster tail-dances across the water.

Hundreds of Alberta anglers are finding this out, as more and more prairie lakes are stocked with trout, making the king of game fish available in areas which we knew nothing but perch, pickerel and pike, or "jackfish."

Don't get me wrong. Pickerel, Perch and Pike are excellent sport fish. They are well worth catching, both for the sport and for the delicious eating when properly prepared. They're just not trout, that's all. And it's nothing to hold against them.

Alberta's program of planting trout in small prairie lakes is one of the most revolutionary fish management schemes in North America. It has attracted the attention of biologists, conservation authorities and sportsmen all over the continent.

It comes as a result of the work of provincial fisheries biologists, who decided that the artistic joys of angling for trout should not be confined to those Albertans who live in a narrow band of native trout country among the lakes and streams of the foothills and mountains.

To carry out their unique program, they chose the most improbable bodies of water they could find — the tiny potholes or overgrown sloughs that dot the prairies from one end of Alberta to the other. They must have been well endowed with imagination and foresight, because no one had ever heard of trout living in such places.

But they are thriving, and growing at an almost unbelievable rate. In some lakes, trout placed as fingerlings have grown

into three or four-pound beauties within 15 months.

This is nothing short of fantastic when you consider that trout in mountain streams take years to grow that big. The growth is caused by a combination of abundant food supply and lack of competition from other fish.

The lakes chosen are ones which support only native populations of perch, which don't bother the trout, and sticklebacks, small fish which the trout devour in great quantities.

In addition to the sticklebacks, the trout gorge themselves on dragon fly nymphs, fresh water shrimps, various aquatic insects, flies and other foods found in the water.

It can readily be seen why a lake supporting pike would never do for trout. One hungry pike — and pike are always hungry — would make short work of a few thousand fingerling trout.

The most unusual feature of the program is that the biologists want the anglers to clean the fish out of the lakes within about three years after they are stocked. Generally speaking, trout planted early in the spring run right along and are ready to be caught by fall.

The idea of fishing them out as soon as possible is to prevent them from growing too big. Biologists explain that a given area of water can support either a handful of large fish or thousands of average-sized fish. This is a simple problem in food consumption and supply. From the standpoint of the angler, a large number of average-sized fish is most desirable.

Some lakes have produced 16-pounders. It is easy to understand how a fish this size would eat a lion's share of the natural food available, crowding out his smaller brothers and also eating any fingerlings used for restocking.

So the idea is to have the lakes fished out every few years, and then plant them over again. It should be pointed out that the lakes have not reached the stage where there is natural reproduction. The lakes chosen have no streams flowing in or out of them, and trout require running water and gravel stream beds for spawning.

To date, the program has provided sport for hundreds of Alberta anglers, and officials plan to make trout available to many more. Over a million fish were plated last year, and the figure probably will be as much or more this year. The intention is to provide trout fishing within easy reach of the province's centers of population.

Until this year, anglers took advantage of the program without having to purchase a provincial fishing license. Now, however, officials have decided the project is beyond the experimental stage and a license is required. License purchases provide money that makes these things possible.

The planted trout are giving sport to both the purist dry fly anglers and to the more casual fishermen.

One of the accepted methods for catching the trout is to cast or troll tiny spoons and plugs in deep water. The smallest lures you can buy are the best, and

**RUST CONTROL
WHAT'S IT WORTH?**

The recent locust infestation in 1954 have emphasized the urgent need for intensified research on the rust problem. What financial benefits would the control of rust bring to the farmers of Western Canada? This can best be illustrated by the cost of the toll that the rust of wheat alone has taken in the Prairie Provinces since 1916.

Concrete Evidence For the 16 years, 1916-28, 1930, 1935 and 1937, that is, before Thatcher and other rust-resistant wheat varieties were introduced, the average annual loss in farm income in Western Canada from stem rust was \$47,500,000. In 1916 alone the financial loss was \$234,000,000; while in 1930, and again in 1935, the losses were \$100,000,000. Race 15B stem rust reduced farm income in the "rust area" of Western Canada in 1953 by \$29,000,000. And then came 1954! Last year, stem rust and leaf rust of wheat stole at least \$300,000,000 from the farmers of Western Canada.

Can Happen Again The rust tragedy of 1954 is not likely to be repeated in 1955. However, let's not bury our heads in the sand — it can happen again! The control of stem rust is a major scientific question. No rust control can only be accomplished by well-planned, continuous and co-ordinated scientific effort (research).

More Research Needed. The devastating rust epidemics of 1954 point up the tragic need for co-ordinated research on the rust problem, and the intensification of all control efforts. If, in the years ahead, sudden and disastrous rust losses are to be prevented, the fight must be carried on continuously on a broad front. As cereal rust research is mainly a governmental activity, the farmers of Western Canada should demand the more financial assistance and facilities for research immediately for rust control research. Needless to mention, an investment in rust research is truly an investment in the future welfare of the agricultural industry of Western Canada.

This is where spinning tackle comes in handy, because you can cast the light lures a long distance. One of the favorite lures, a consistent producer, is a small, yellow Flashlight.

Members of the Edmonton Trout Fishing Club report success with a special wet fly designed by one of the members, which resembles a dragon fly nymph. Some anglers prefer still-fishing with worms or other live bait, and this also produces.

Whatever method you prefer, there is plenty of fun in store under Alberta's new deal for anglers.

This is it—the love affair of the CENTURY — the SPECIAL—the ROADMASTER—and the SUPER.

It all began last Fall, when '55 Buick made its bow to society. One look at the "years ahead" styling and stunning colors—and eyes met—hearts soared—thousands of Canadians said "Yes!"

Then came a whispered promise of great things from Buick's truly magnificent 188 hp or 236 hp V8 Engines.

Finally—out on a quiet highway—the moment came for the thrill of them all—the whiz-bang go and gas savings of Variable Pitch Dynaflo* automatic transmission.

In a situation like this, who could resist? (To judge by sales, hardly anybody can.) So please—for your own sake—see your Buick dealer—very soon.

*Standard on Roadmaster, optional at extra cost on other Series.

When better automobiles are built BUICK will build them.

Ontario 4-H member to visit Manitoba

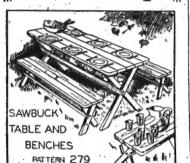

Miss Katherine Merry, 4-H member at Milton, Ontario, has accepted an invitation to visit with neighboring 4-H members and leaders in Manitoba. Arranged through the Manitoba 4-H Council, Miss Merry will speak in Winnipeg on July 12th to commence an interesting and intensive program that has been planned by the Extension Service of the Manitoba department of Agriculture.

During the two weeks following, Katherine will attend a number of 4-H events, including the regional 4-H rallies at Carman and the Portage la Prairie exhibition, and will be a guest on the farm of Mr. and Mrs. E. Pritchard where during the summer, 4-H members and a first-year student in Home Economics at the University of Manitoba, Mr. Pritchard is leader of the local beef club and was a member of the swine team that represented Manitoba in the National competition at the Royal Winter Fair in 1957.

On July 18, Miss Merry will meet with the executive of the Manitoba 4-H Club council and the following day with the Winnipeg Kiwanis Club for the provincial 4-H speaking contests. Katherine's visit to Manitoba marks the first interprovincial 4-H visit of this kind in Canada.

Katherine Merry has an outstanding record of achievements during her six years in 4-H work including the championship of the Queen's Guinea Class at the 1954 Royal Agricultural Winter Fair.

Home Workshop

This backyard set is just what is needed to make those family picnics a huge success. The saw-buck type of wooden bench is designed so that it will fit easily into any barbecue setting. A hand saw, hammer and screw-driver are the only tools needed. All dimensions and measurements are given and shown with large sketches on pattern 279 which is 35c. Available in packets of five standard size patterns \$1.00 each. Patterns are: Lawn & Garden Figures, pattern No. 1 and 2; Home Improvements, packets 1 and 2; Laws & Gardens Furniture, pattern No. 3. Any of these packets may be returned for refund if any single pattern in a packet is not used or as expected.

Even if dinner is not ready whenever there is a breeze stirring the little lady in her blue frock and white apron, she is the best of company. Little girls will be the size for this project and with pleasing tones are available at small cost. The white house is one inch thick, trimmed with green shutters and has a flowered brick red chimney. A coping saw may be used to cut out the various parts but a jigsaw would be better suited to do a fine job. The pattern gives the actual size of each piece which is traced directly to the wood; but the wood must be cut to size by the sponsoring organization and that the 4-H member will return that amount following the sale of his barrow pig through public auction at the club's 4-H achievement day next fall.

Address order to:

Department P.P.L.,

Home Workshop Pattern Service,

4435 West Fifth Avenue,

Vancouver, B.C.

PEGGY

In addition, many will remember the inspiring address that she presented at the recent annual meeting of the Canadian Council on 4-H Clubs.

YOUTH AND HIGHWAY SAFETY

The first national conference on highway safety was held in Ottawa during the week of May 23. Its purpose was to bring together the many agencies and individuals interested in safety on our highways and to formulate recommendations to prevent loss of life through traffic accidents.

Youth Groups was one of the delegations of the conference. Youth organizations represented included Boy Scouts, Girl Guides, Girl Guides, Y.M.C.A., Juniors, Royal Canadian Air Cadets, and the three days each of the 16 delegate divisions met separately to exchange views and to prepare reports for the concluding session of the conference.

In its report, the Youth delegation discussed the establishment of permanent Canadian Highway Safety Conference and recommended the setting-up of a sub-committee to co-ordinate the activities of all youth organizations in relation to highway safety. It also recommended that every organization in Canada participate in Canada's present highway program and initiate, where possible, new activity in this field.

LEADERSHIP TRAINING COURSES

The value of the best possible leadership training in 4-H work is widely recognized. With this in mind, the departments of agriculture are providing additional leadership training courses. These courses, usually one to three days in length, serve to bring leaders together to bring lectures and instruction, and for open discussion.

One of several examples that could be cited is in Alberta where a series of 19 regional one-day leader training courses were conducted throughout the province during the winter months. Over 1,100 leaders, assistant leaders, parents and 4-H club executive members attended these courses which featured program planning and leader responsibilities. Local agricultural workers were invited to attend these courses and in each case talks on latest trends in 4-H work were given by George Black, Provincial 4-H Supervisor, or Miss Priscilla Mehta and Les Usher, Assistant 4-H Supervisor.

During the leader training periods at each conference the leaders approved the appointment of older club members as assistants or junior leaders, not only to help ease the load of the senior leaders but also to provide practical experience to young people who have not yet had any leadership experience. The meetings also endorsed the value of team demonstrations, in all 4-H clubs, as one of the best ways to develop interest, initiative and confidence.

MOUSEHOUSE CLUBS

A change in last year's regulations has resulted in greater membership and interest in 4-H swine clubs in Ontario. Previous to 1954, each member was required to feed and care for one pair of weanling sows for one month. Consequently, last year, however, swine club members could either continue with this project or have one weanling sow, to be kept for breeding purposes, and one pig, either sow or barrow, for market purposes.

In 1954 Ontario had 53 4-H swine clubs with a combined membership of 710. This year at least 65 swine clubs have been organized with a corresponding growth in membership.

R. Bennett, Associate Director of Education, Ontario, commented that this new regulation is largely responsible for the increased interest. Mr. Bennett reported also that in some cases the pairs of pigs were purchased directly from the wood, but the cost was borne by the sponsoring organization and that the 4-H member will return that amount following the sale of his barrow pig through public auction at the club's 4-H achievement day next fall.

Today is yesterday's pupil.

Museum of Natural History display

THIS DISPLAY SCENE, of white-tailed deer, can be seen at the new Museum of Natural History in Regina. Its locale is three miles south of Craven, Saskatchewan, and shows Flying Creek, locally known as Barber Creek, a tributary of the Qu'Appelle. One of the main big game animals in North America, the white-tailed deer is the most numerous species, according to statistics formed at right angles to the main beam, and these they shed in Spring. Females are hornless.

Skilled men from six countries produced Sask. museum frieze

REGINA — Winnipeg sculptor Hubert Garner travelled more than 4,000 miles to find the men whose skill eventually produced the 325-piece stone frieze encircling Saskatchewan's new \$1,000,000 Museum of Natural History, relates a Canadian Press story.

The frieze depicts more than 300 animals, birds and fish native to the province, and was one of the biggest sculpting jobs ever undertaken in Canada. The frieze, carved in Tyndall stone from quarries near Winnipeg, is about 28 by 32 inches. The figures are carved in relief from stone blocks which in some cases overlap into the museum wall, giving a realistic impression.

Links found

The artists formed a little league of nations. They were Frank Carus of Hannover, Germany; Roman Koval of Lwin, Ukraine; John Gaitanos from Athens, Greece; Herve Grolet of Montreal, and A. G. Hardy of Brandon.

Gaitanos, a newcomer to Canada, was merely shown by Garner what was needed. Sometimes, Garner was forced to find one of Gaitanos' countrymen to serve as a guide.

Hidden wealth

The area involved includes most of the Queen Elizabeth Islands radiating from Resolute Bay, and 1,000 miles north of Churchill, Manitoba, truly the land of the midnight sun, where even the Eskimos are loath to tread.

Howard's work

The operation, announced recently by Mines Minister Prudham, will consist of an exhaustive compilation of data on the type of mineral deposits and potential petroleum compounds which lie hidden in this relatively inaccessible region of Canada's northland.

Although provisions and equipment are already on their way to Churchill, the project itself will begin in September with 30 men, geologists, students, mechanics and airmen will be airlifted into the village.

Stone selection

Each block for the carving was carefully selected. Garner used the bluish Tyndall stone for the work, using the blue stone used in the walls.

Once the figures were roughed out, Garner completed the finishing touch, a long and hard job.

Good year to accumulate feed reserve

(By A. D. Smith, Experimental Station Lethbridge, Alta.)

This is a good year for dry land farmers with livestock to accumulate two or three years of feed reserves and allow overgrazed pastures to recover and thicken out with new growth.

The season is becoming late for seeding wheat in many areas of Alberta. Soil moisture reserves are high. The wild oat problem will be increased with the late planting, and there is a large amount of wheat stored on farms, but the supply of hay is low. Seeding a cereal hay will replenish the hay supply, combat weeds, and leave a protective covering on the soil. It will also provide a crop that can be harvested before the frost hazard arrives.

In tests at the Whitemud and Acadia Valley substations, in the southeast, spring rye proved to be a good cereal hay, while at the Pincher Creek substation in the southwest, spring barley or rye produced good forage and reduced the wild oat population.

Permanent grass pastures will benefit by a rest period during the summer months, and the rest period can be accomplished by cutting the crop.

At the Cherson and Pincher Creek substations, oats are considered the best cereal cover crop. About five to six weeks after seeding oats at one bushel per acre, the cover crop is ready for pasturing.

At the Pincher Creek substation, a great crop of fall rye was harvested from fall rye which was pastured in the fall and early spring.

There is a good supply of wheat in the farms and good pastures and hay are in ample supply. Therefore, the farmer with livestock should consider building up his pastures and hay supplies.

Iron ore sometimes is used as ballast in ocean-going vessels.

Make All Four of these thrilling oven treats with One Basic Dough!

1. Chelsea Twists

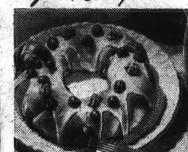

2. Orange Whirls

3. Date Eights

4. Jam Ring

Versatility begins at home with Active Dry Yeast!

One quick dough, thinly rolled, comes out four delectable dessert delights! Raised oh-ho so tender 'n' light with amazing Fleischmann's Active Dry Yeast! When you bake at home, get festive results with Fleischmann's. Never fails. Keep a mouthful's supply on hand.

BASIC PINWHEEL DOUGH

Scald:

1½ cups milk
¾ cup granulated sugar

2½ teaspoons salt

1 envelope yeast

Remove from heat and cool to lukewarm.

In the meantime, measure into a large bowl:

¾ cup lukewarm water

1½ cups granulated sugar

and mix until sugar is dissolved. Sprinkle with yeast.

3 envelopes Fleischmann's Active

Dry Yeast

Let stand 10 minutes. Then stir well.

Sift in:

4½ cups enriched bread flour

and beat until smooth and elastic.

4½ cups lukewarm enriched bread flour

Turn out on lightly-floured board and knead dough lightly until smooth and elastic. Place in a greased bowl and cover. Let rise until doubled. Turn out on a floured surface and knead lightly until smooth. Divide into 4 equal portions and flatten as follows:

OUR COMPLETE SHORT STORY

THE LUCKIEST MAN

By VALERIE CULLEN

THESE good luck coins are a lot of foolishness," Dan muttered to the waitress by his side. "Generally a customer passes on at least one a day to me. I should be the luckiest man alive according to that, but I'm not."

It was closing time, and Dan, a lean, thin man in his early thirties, was estimating the day's profits at the restaurant's cash register. In the soft darkness outside twinkling neon lights had one by one flashed on. The last customer left, a nondescript young man, who, after smoking a cigarette, flicking the ashes too frequently, and watching the outside street intently.

Irritated by Delta's indulgent smile, Dan continued, "Look at these old Indian head pennies! And here are some French and English coins—useful souvenirs and silly

superstition."

"That's a lot of change you got there, mister," Starlind, Dan glanced up to see that the stranger had moved noiselessly from his table and was now standing menacingly close.

"Oh, not so much," Dan replied slowly. "Hi, and the stranger's eyes were locked in a stare, and eyes questioning and alert, the stranger's eyes ruthless and bright. Still trying to hold his gaze, Dan let his hand drop slowly below the counter, fingers touching a cigarette, where he kept it for ever.

"That's enough," the man suddenly shouted. He crashed the side of a rigid palm down on Dan's forearm; a gun quickly appeared in the other hand. Dan winced in pain.

"How dare you strike and rob a hard-working man!" Delta snapped, all of her feminine protective instincts aroused and anger overcoming caution. Long ago disappointed by Dan's failure to ask for a date, she had first met him in work in his restaurant, and had accepted her failure and pushed her affection for him into the background. Although she knew she was no ravishing beauty, she was young and pretty in a wholesome way. Now every bit of repressed love for him came furiously to the surface.

Disregarding the gun, she leaned over and slapped the stranger as hard as she could. Dan reached for the gun at the same time. With a curse, the man jammed the gun against Dan, who was white with anger, not for himself but for Delta's treatment.

"You're smart, don't you?" the man sneered. "Is the cut blonde your wife?"

"No, and she's none of your business."

"Pretty cute waitress. I'd like to pay her more attention, but I'm in a hurry this time. So just hand me all the money in the cash register—and fast, mister. Remember, no funny business this time either."

Jamming the money into his leather pocket, he turned and dashed backwords to the door, quickly leaped into a car at the curb and disappeared around the corner.

"Did he hurt you, Delta?" Dan demanded anxiously.

"Just enough to breath out of me. Are you all right?"

Looking at each other with concern, they both were suddenly swept with a feeling of trust and comradeship and something else that did not exist before.

"We'll have to call the police right away," Delta said, wrenching herself back to the present with an effort.

"I'm afraid we won't stand a chance of catching him. I didn't get my car license because it was dark." Dan picked up the phone and gave detailed descriptions to the police.

When he finished, he turned to her. "Can I drive you home tonight? You must feel pretty nervous."

"Thank you," she replied with lowered eyes. She knew they both felt this night was different from the other nights he had casually dropped her off at her home. On the drive, she talked hesitantly and then more freely. When he came to the amazing discovery he was very shy underneath his calm poised exterior.

She was almost glad the hold-up had occurred, because it had brought them together.

The next morning when she reported to work, they smiled at each other with the same friendly and understanding look and almost missed seeing Pat, the neighborhood dog, who greeted her from the door.

"Say, can you come down to the station to identify a man we picked up who answered your description?"

"Well, h-h-how did you find him?"

"We watched restaurants and shops in this area. Then we got a report a man had bought a new suit of clothes and paid for it with some of those foreign and Indian head pennies you mentioned. I guess he didn't even notice he had bought it on credit."

"Well, I'll be," Dan drawled in amazement. He looked at Delta for a long moment and then laughed. "I think those coins really did make me a lucky man!"

He tried to understand the unspoken little joke that passed between the two.

Minimum teaching
1955-56 is 198

REGINA.—The number of teaching days for the academic year 1955-1956 in Saskatchewan's public separate and high schools has been set at 198.

A school will qualify for the full operational grant only if it is in operation for the minimum number of days or more. The minister of Education sets the number of teaching days each year under the authority of the School Act.

The minimum number of teaching days for year 1954-1955 was also 198.

Ethyl is produced by distillation of alcohol with sulphuric acid.

Local News

Mr. and Mrs. A. Russel and family from Cooksville, Ont., have moved to the Irma district and will shortly take up residence on their new farm, the former T. Yarr property.

Mrs. F. Watkinson spent a short time in Wainwright last week, guest of Mr. and Mrs. E. Carter.

Mr. and Mrs. Chord of Edmonton visited with Mrs. Lang on Sunday.

Mr. and Mrs. Stan Brown are holidaying at the coast.

We are sorry to report that Mervin Lovig is a patient in Wainwright hospital. We wish him a speedy recovery.

Further donations to the memory of the late Mrs. B. Hewitt have been made to the Memorial Fund by Mr. Bob Kasten of Edmonton and to the St. Mary's Memorial Fund by St. Mary's W.A. and Mr. and Mrs. R. Simmerman.

Born to Mr. and Mrs. L. R. Jones on June 26 at the Hospital, a son, weight 6 lbs. 3 oz.

Mrs. Dyck and Mrs. T. Foulkes with their children of Edmonton, have been visiting their parents, Mr. and Mrs. F. Hill.

At the WMS meeting held in the church parlor on Thursday last, decision was reached to omit the July and August meetings but to continue with the Systematic Giving. An excellent program was presented by Mrs. Ingalls, Mrs. Coffin and Mrs. Jack. Mrs. Simmerman, in continuing her conference, gave a paper on our Growing Alcohol problem. A new member, Mrs. M. Enger, was welcomed at this meeting.

Mr. and Mrs. H. Halvorsen have been enjoying a visit from their sister, Mrs. Byler of Calgary, and an aunt from Eastern Canada. Mr. and Mrs. F. Drevelow of The Dalles, Oregon, have been renewing acquaintances in Irma and district.

Mrs. J. Marshall has returned from a visit with friends at Lloydminster.

Installation of the recently elected officers of the Irma Branch of the OORP No. 165 District 4, was conducted by D.D.S.H.R.L. Tory assisted by P.H.A.L. Smith of Wainwright at the regular lodge meeting held in the Legion hall on Tuesday evening, June 21. Special guests were newly elected D.D.S.H.R.L. Scott and H.R.L. Cavanaugh of Hardisty. Members of the Irma Elks were also present.

Mr. and Mrs. Carl Larson are visiting with their daughter Mrs. G. Murphy (Elsie) at Thomas-ton, Conn.

Miss Joan Mum who has been visiting with Mr. and Mrs. Targett for the last two weeks has returned to her home in Calgary.

Mr. and Mrs. K. Coffin had a brief visit from their brother Mr. Sid McGrath and Mr. H. Honeywell, both of Calgary.

C.F. Don Fischer and C.E. Eddie Oracheck who have been receiving basic training at Centralia, Ont., visited at their parental homes before proceeding to Moose Jaw where they commence their flying training.

Little Beverly Miller has been a patient in Wainwright hospital.
